

Call for Expression of Interest

The purpose of this Call for Expression of Interest is to solicit interest from existing or prospective partners that wish to participate in a UNHCR operation and contribute complementary resources (human resources, knowledge, funds, in – kind contributions, suppliers and or equipment) to achieving common objectives as agreed in a Project Partnership Agreement. NGOs and other non-profit entities interested in partnering with UNHCR are encouraged to express their interest by registering on the Partner Portal (<https://partner.unhcr.org>), and submitting their Expression of Interest and Concept Note(s) through it.

Potential applicants are requested to fill the selection criteria in this form.

Call for Expression of Interest No : 5	
Project Title	Support to address grievances of the population through targeted resettlement of the remaining caseload of the conflict-affected IDPs.
Project Locations	Trincomalee District , Muthur Division, Sampoor West and Sampoor East GN Divisions
Brief Background of the Project	<p>The project supports crucial peace building opportunities brought about by the political transition in January 2015 that are aimed at promoting national reconciliation in Sri Lanka, giving priority attention to trust and confidence building measures amongst groups most affected by the inter-ethnic conflict. It also supports the resettlement of the remaining IDP caseload to land being released by the military from High Security Zones (HSZ) in Trincomalee District after the new government that came into power on 8 January 2015. The non-return of these lands has been one of the major grievances and causes of political stand-off in recent years among politicians at central and provincial levels and also remains as a factor contributing to the significant level of bitterness among members of the different communities.</p> <p>In an attempt to resolve this long-standing issue, the current government of Sri Lanka has allocated limited resources for re-settlement and has requested donor support to ensure basic supplies and services for the</p>

	<p>initial period of resettlement. This project envisages to cover some of the identified immediate needs of the most vulnerable families (including female headed households) who wish to return to their places of origin as part of the initiative to deliver durable solutions for the IDP returnees. Sustainable resettlement will be a key element of trust and confidence building among the minority community.</p> <p>This project seeks to provide a protected space for living of 140 vulnerable /IDP Returnee families (including female headed households), through the provision of transitional shelter for newly released area at Sampoor in Trincomalee District. It provides quick impact and high visibility resettlement initiatives delivered as confidence building measures to deliver inclusively and consultatively on the core grievances of minorities, strategically targeting conflict-affected and vulnerable IDPs.</p>
Goal/Objective, Expected outcome and Main Activities	<p>Goal – Reintegration</p> <p>Objective - Reintegration made more sustainable</p> <p>Output - Land, housing, property and documentation rights of persons of concern are upheld</p> <p>Main Activities: Support the construction of transitional shelters for the most vulnerable IDPs/ returnees, to anchor their places of return.</p> <p>Providing the monetized relocation assistance for land clearance to most vulnerable families in the newly released area.</p>
Intended Population of Concern	IDPs Sri Lankans (IDP Returnees)
Project period	01 January 2016 – 31 December 2016
Submission Deadline	17 September 2015
Date Decision Results to be communicated to Applicant	04 November 2015
Selection Criterion	
Please comply with the word limits; additional text will not be considered. No	
Weight	

additional documents will be accepted.
